

R E S U M E

PROFILE:

Sandro Katamadze

Tbilisi, Georgia

Full-Stack & Mobile Development

I design and develop websites, mobile apps, and chatbots — quickly, efficiently, and at affordable rates. If you need a digital product that doesn't just look good but actually works, you're in the right place. 🚀
My goal is to turn your idea into a real, working solution — with simplicity and style. Let's bring your vision to life.

WORKING EXPERIENCE

Mobile Developer - Komokie
Nov 2025 - Present

Mobile Developer - PetC
Nov 2025 - Present

EDUCATION

GEOLAB MOBILE DEVELOPMENT (DART, FLUTTER, APP INVENTOR) 2024-2025

This course focuses on mobile application development using Dart and Flutter technologies. It also covers the use of App Inventor for creating interactive applications.

SKILLWILL NEO UNIVERSITY - BACKEND DEVELOPMENT 2024-2025

This course is dedicated to backend programming, working with databases, and server architecture. Participants will learn how to create APIs and build scalable systems.

EXPLORIUM CHATBOT DEVELOPMENT (PYTHON CHATBOT WEB DEVELOPMENT AND NARRATIVE DESIGN) 2024-2025

This course covers chatbot development using Python, focusing on web integration and narrative design for creating engaging AI-powered conversational experiences.

TBC TECHSCHOOL X GEOLAB FRONT END (HTML, CSS) 2024 - 2025

A comprehensive course on front-end development covering HTML and CSS fundamentals, best practices, and modern web design techniques.

ALGOUNI FRONT END (HTML, CSS, JS) 2025 - PRESENT

A comprehensive course on front-end development covering HTML, CSS and JS fundamentals, best practices, and modern web design techniques.

CHIATURA MULTIFUNCTIONAL CENTER - ROBOTICS 2024-PRESENT

This program introduces participants to the world of robotics, including hardware programming, automation, and AI-driven robotic solutions.

CHIATURA MULTIFUNCTIONAL CENTER - IT NETWORKS & MANAGEMENT 2024-2025

A course covering IT networking principles, infrastructure management, and cybersecurity fundamentals for building and maintaining robust IT systems.

CHIATURA MULTIFUNCTIONAL CENTER & GENAIEDU - ARTIFICIAL INTELLIGENCE 2024-2025

This course explores the fundamentals of artificial intelligence, including machine learning models, neural networks, and AI-driven applications.

CHIATURA MULTIFUNCTIONAL CENTER - WEB DEVELOPMENT - JAVA 2025

A course dedicated to Java-based web development, covering backend frameworks, database integration, and building scalable web applications.

COMPETITIONS

Robocup Junior Euro 2025
Italy, Bari

04.06.25 – 07.06.25

Robocup Junior Euro 2024

Georgia Chiatura

11.05.24

Tech Camp Bakuriani

20.07.25 – 23.07.25

Civic Education Hackathon

19.11.24 – 25.11.24

HOBBIES

Riding a bike  

Writing poems 

Playing basketball 

Playing chess 

Playing piano 

Playing guitar 

Robotic 

CHIATURA MULTIFUNCTIONAL CENTER – WEB DEVELOPMENT – PYTHON 2025

A practical course on web development using Python, covering Django and Flask frameworks, RESTful API development, and database integration.

CHIATURA MULTIFUNCTIONAL CENTER – ANDROID DEVELOPMENT –KOTLIN 2025

A specialized course on Android development using Kotlin, focusing on UI/UX design, mobile app architecture, and Google Play deployment.

TechWorld with Nana – IT Beginner's Course

An introductory course designed for beginners to learn the basics of IT, covering computer systems, networking, programming fundamentals, and cybersecurity awareness.

UNILAB (ILIAUNI'S CYBERLABORATORY) – WEB DEVELOPMENT – PYTHON 2025

A practical course on web development using Python, covering Django and Flask frameworks, RESTful API development, and database integration.

UNILAB (ILIAUNI'S CYBERLABORATORY) FRONT END DEVELOPMENT (HTML, CSS, JS) 2025

A comprehensive course on front-end development covering HTML, CSS and JavaScript fundamentals, best practices, and modern web design techniques.

UNILAB (ILIAUNI'S CYBERLABORATORY) – SCIENTIFIC COURSE – PYTHON 2025

A practical course on data analytics using Python, covering matplotlib and many libraries and database integration.

UNILAB (ILIAUNI'S CYBERLABORATORY) C++ DEVELOPMENT 2025

Working with C++ projects

TBC TECHSCHOOL X GEOLAB BACK-END DEVELOPMENT (PYTHON) 2025

I completed a practical course covering Python basics, object-oriented programming, and full-stack web development using Flask. I built dynamic websites with HTML, CSS, Bootstrap, integrated databases with SQLAlchemy, and implemented user authentication features.

COURSERA – INTRODUCTION TO AI AND MACHINE LEARNING ON GOOGLE CLOUD 2025

Recognize the data-to-AI technologies and tools offered by Google Cloud. Use generative AI capabilities in applications. Choose between different options to develop an AI project on Google Cloud. Build ML models end-to-end by using Vertex AI.

GEORGIAN AI ASSOCIATION – GEORGIAN AI COURSE 2025–PRESENT

Learn Python, Pandas, and Linear Algebra to build a strong foundation in data and AI. Develop analytical and programming skills essential for solving real-world AI problems. Gain practical experience in machine learning fundamentals and prepare for AI Olympiads in Georgia and around the world.
